

## First studies of plant life

---

By George Francis Atkinson

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 edition. Excerpt: . . . of gas come out more rapidly on a sunshiny day than on a cloudy one. The more light there is, then, the more work the plant can do. This can be told in another way. Remove the bottle from the window and put it in a poorly lighted corner of the room. The gas is given off more slowly. Cover the bottle with dark cloth to shut out all light. In ten or fifteen minutes uncover it. The escape of the gas has ceased. Now place it in the brightly lighted window again. The bubbles soon start up afresh. Fig. 151. The tell-tale bubbles rising from a water plant. Do the pond scums do the same kind of work Many of you have seen the green-looking scum, as some people call it, which floats on the surface of ponds or on the water of ditches,...
