Writing Word Macros

By Phd Steven Roman

O'Reilly Media. Paperback. Book Condition: New. Paperback. 412 pages. Dimensions: 9.2in. x 6.9in. x 0.8in. Many Microsoft Word users and VBA programmers don't realize the extensive opportunities that exist when Word's Object Model is accessed using Visual Basic for Applications (VBA), which replaced WordBasic in conjunction with the release of Word 97. By creating what is commonly called a Word Macro you can automate many features available in Word. Writing Word Macros (previously titled Learning Word Programming) is the introduction to Word VBA that allows you to do these things and more, including:

- Create custom pop-up menus
- Automatically create tables from lists
- Append one document to the end (or beginning) of another
- Create a toggle switch to change a document from draft to final copy by adding or removing a watermark in the header
- Generate reports using data from other applications

Not intended to be an encyclopedia of Word programming, Writing Word Macros provides Word users, as well as programmers who are not familiar with the Word object model with a solid introduction to writing VBA macros and programs. In particular, the book focuses on: The Visual Basic Editor and the Word VBA programming environment. Word features a complete and very powerful integrated development environment for...
